Gregg,

I know that your lab is very slow in reporting age-dating information to you. That is understandable, and as long as you get the data in when you get it, I don't see a problem. Just to keep myself straight I made a list of currently outstanding age-dating data, just so I am aware to look for it. I thought I would share it with you. If you disagree with any of it, or happen to have some of the data, please let me know.

Thanks,
Dana
